

Product Request Form

Dear Manager,

Please consider adding the TreatStik® Pet Toys line of products to your store. The TreatStik® is a very tough Nylon MEAL and TREAT dispensing toy that will offer my dog hours of mentally stimulating fun. As the dog nudges & rolls the toy it randomly dispenses its hidden treats. It stimulates the dog's mind, while relieving boredom and separation anxiety. It also helps with weight control! It is a deterrent from destructive behavior that can stand up to very strong chewers. In addition, it is dishwasher safe and **Made in the USA.**

Thank you for your consideration,
